Asked by: Hon TIK Chi-yuen (LegCo internal reference no.: 226)

Reply:

The Correctional Services Department (CSD) provides basic medical care services to all persons in custody (PICs), including setting up hospitals in correctional institutions where medical examinations and appropriate treatments or referrals are provided to newly admitted PICs by Medical Officers (MOs) seconded from the Department of Health and correctional officers with nursing qualifications. CSD will also arrange for PICs to serve their sentences at appropriate correctional institutions and provide PICs with appropriate health care, attention and necessary treatments, taking into account the advice of MOs.

CSD also cares for the special needs of PICs with disabilities. For instance, CSD organises sign language courses in collaboration with non-profit-making organisations to enhance frontline correctional officers' communication skills with and understanding of PICs with hearing impairment. In addition, CSD will, having regard to the circumstances of individual PICs with hearing impairment, engage part-time sign language interpreters or seek assistance from non-governmental organisations to arrange sign language interpretation service for those PICs in need.

Since the caring of PICs with disabilities forms part of the daily management work of CSD, the Department does not maintain a breakdown of the expenditure involved.

According to the annual penal population survey conducted by CSD, a breakdown of the numbers of persons with disabilities serving sentences by the type of disabilities from 2019

to 2023 is tabulated below (since the penal population survey for 2024 has yet to be conducted, CSD does not have the relevant statistics):

Year (As at 31 March)	Persons with mental disabilities or mental illness	Persons with physical disabilities	<b>Total</b>
2023	474	106	<b>580</b>
2022	229	125	<b>354</b>
2021	79	135	<b>214</b>
2020	78	95	<b>173</b>
2019	254	154	<b>408</b>

As for transgender persons, a total of 73 transgender persons were admitted to correctional institutions from 2019 to 2023, of which 5 cases involved female-to-male transgender persons.
